P910327

REMARKS

Applicants have amended claims 1, 2, 12, 13 and 20. Claims 1-23 are presently pending in the application.

Applicants would like to thank Examiner Paul Kim for his thorough search and review of the prior-art, his careful consideration and examination of the present application and claims, and his indication that claim 2 contains allowable subject matter. In particular, the Examiner stated that claim 2 was objected to as being dependent upon a rejected base claim but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The Office Action rejected claims 1 and 3-23 on prior art. Regarding these rejections, claims 1 and 3-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ridolfo (U.S. Patent No. 5,702,980) in view of Perala (U.S. Publication No. 2003/0217894).

Regarding this rejection, Applicants would like to thank Examiner Jeff West, to whom this case has been transferred, for the Examiner Interview conducted with Applicants' representative, Kenton R. Mullins, on March 7, 2006, at which time it was indicated by Examiner West that the independent claims as presently amended would appear to distinguish over the prior art of record. It was suggested that submission of the current Amendment by Applicants should result in withdrawal of the outstanding prior-art rejection to the extent the claims reflect the content discussed in the Examiner Interview of March 7, 2006, which they do. Examiner West reserved the right to review the case in greater detail and to conduct any applicable update and interference searches.

In view of the amendments and remarks set forth herein, it is respectfully submitted that each and every objection and rejection has been overcome. Reconsideration and withdrawal of the rejections is thus requested. Applicants respectfully submit that the application is in condition for allowance, and an early indication of the same is requested. The Examiner is invited to contact the undersigned with any questions.

Respectfully submitted,

Kenton R. Mullins
